

Marinello Realty presents

Monthly Informational Open House Event

Beginning January 2011 we will be hosting monthly open house events the *second weekend of every month*. During these events Buyers and Sellers will be able to accomplish the following:

Buyers

1. See several properties open during the same time that may fit your needs.
2. Meet with *local lenders* to get general information on the home buying process, start pre approval process or ask specific questions about current rates and loan programs.
3. Get printed information on the home buying process and how your Realtor can make this process simple, easy and stress free for you.

Sellers

1. This will be a great opportunity for you to showcase your property when you list with Marinello Realty.
2. Also, this is a great opportunity for Sellers to take a look at their competition when either thinking of listing their home or adjusting a price on a pre existing listing.

We look forward to helping Buyers and Sellers with their real estate transactions. Please remember this is not a high pressure sales event. We are here to offer information and the opportunity to help Buyers and Seller gain knowledge about the current market, lending options and the home buying process. This is our way of helping the community make informed decisions when buying and selling real estate.

Please watch our website at MarinelloRealty.com, our Facebook page or the Friday section of The Daily Record for the times and addresses of the properties that will be open during these weekend events.
